CONTENTS

Volume 15, Number 1

Critical reviews and theoretical articles

Antidepressant for substance-abusing schizophrenic patients: a minireview 1
S. G. Siris, P. C. Bermanzohn, S. E. Mason and M. A. Shuwall

Full-length original papers

Clinical studies

'La Douce Indifférence' and mood in anorexia nervosa: neuropsychological correlates 15
R. C. Casper and W. Heller

Relationship between seasonal patterns of platelet serotonin uptake and ^{3}H-imipramine binding in depressed patients and normal controls 25
A. Chicz-Demet, C. Reist and E. M. Demet

Phenylacetic acid in CSF and serum in Indian schizophrenic patients 41
B. A. Davis, S. Shrikhande, V. P. Paralikar, S. R. Hirsch, D. A. Durden and A. A. Boulton

Increased 5-HT-2 receptor function as measured by serotonin-stimulated phosphoinositide hydrolysis in platelets of depressed patients 49
M. Mikuni, I. Kusumi, A. Kagaya, Y. Kuroda, H. Mori and K. Takahashi

Simulated home treatment of depression with nortriptyline 63
C. Peabody, J. Van Norman, L. Hollister and D. Warner

The prophylactic efficacy of tricyclic antidepressants — a five year followup 71
E. D. Peselow, D. L. Dunner, R. R. Fieve and C. Difiglia

Experimental laboratory studies

Neurotensin-sensitive protein phosphorylation in the rodent caudate nucleus 83
S. T. Cain and C. B. Nemeroff

Ganglioside or sialic acid attenuates ethanol-induced decrements in locomotion, nose-poke exploration, and anxiety, but not body temperature 91
N. Gilmore, L. Cherian and W. R. Klemm

Effects of *p*-chloro-phenylalanine on the behaviors induced by apomorphine and amphetamine in adult cats 105
E. Motles, A. Gomez, C. Briones and M. Gonzalez

Dopamine D-1 receptor-mediated inhibition of nucleus accumbens neurons from the ventral tegmental area 119
M. Sasa, M. Hara and S. Takaori

Somatic and behavioral ontogeny in three rat strains: preliminary observations of dopamine-mediated behaviors and brain D-1 receptors 129
A. S. Unis, F. Petracca and J. Diaz

Instructions to contributors i

Forthcoming papers v

CONTENTS

Volume 15, Number 2

Editorial note vii

Invited paper

Heinz Lehmann Award Lecture

Phenylethylaminergic modulation of catecholaminergic neurotransmission 139
A. A. Boulton

Other invited papers

Nerve growth factor and the neostriatum 157
C. A. Altar

Integrated genetic databases in the study of neuropsychiatric diseases: inborn errors of cerebral metabolic pathways? 171
M. Jaworski and E. Edwards

Glutamate and glycine co-activate while polyamines merely modulate the NMDA receptor complex 183
J. Lehmann, F. Colpaert and H. Canton

New vistas on 5-HT receptors and migraine 191
S. J. Peroutka

Animal models of depression reflect changing views on the essence and etiology of depressive disorders in humans 199
J. S. Richardson

Animal models of anxiety and the development of novel anxiolytic drugs 205
D. J. Sanger, G. Perrault, E. Morel, D. Joly and B. Zivkovic

Extensive and enantioselective presystemic metabolism of DL-*threo*-methylphenidate in humans 213
N. R. Srinivas, J. W. Hubbard, D. Quinn, E. D. Korchinski and K. K. Midha

Long term use of neuroleptics by schizophrenic patients 221
R. Williams, J. T. Dalby and J. Kennedy

A review of *in vivo* modulation of cerebellar cGMP levels by excitatory amino acid receptors: role of NMDA, quisqualate and kainate subtypes 229
P. L. Wood and T. S. Rao

Free communications

1. Original clinical studies

Comparison of the panicogenic effect of cholecystokinin 30–33 and carbon dioxide in panic disorder 237
J. Bradwejn and D. Koszycki

Deuterium-labelled *p*-tyramine challenge test and phenolsulfotransferase activity in depressed patients — failure to replicate decreased *p*-tyramine conjugation in depression 241
B. A. Davis, A. A. Boulton, P. H. Yu, D. A. Durden, R. C. Bowen,

Volume 15, Number 2, *continued*

D. L. Keegan, S. Blackshaw, C. D'Arcy, A. J. Remillard, N. Dayal, S. Shrikhande and S. Saleh

Temporal segmentation of response speed in depression: neuro-electrophysiological approaches 249
V. J. Knott and Y. D. Lapierre

Preparatory brain potentials in major depressive disorder 257
V. J. Knott, Y. D. Lapierre, D. De Lugt, L. Griffiths, D. Bakish, M. Browne and E. Horn

The effect of methyltestosterone on the growth hormone response to the dopamine receptor agonist, apomorphine 263
S. Lal, N. P. V. Nair, J. X. Thavundayil, V. Tawar, H. Guyda and C. Ayotte

Probable interaction of sodium divalproex with benzodiazepines 269
M. Lum, R. Fontaine, R. Elie and A. Ontiveros

Haloperidol reductase activity in red blood cells from oriental patients on haloperidol 275
T. Someya, M. Shibasaki, T. Kato, T. Noguchi, N. Ishida and S. Takahashi

2. Original experimental studies

Involvement of M1 and M2 muscarinic receptors of the basal forebrain in cholinergically mediated changes in the rat locomotion 279
S. M. Brudzynski, R. S. McLachlan and J. P. Girvin

Metabolism of antidepressants: urinary metabolites of trimipramine in the rat 285
M. S. Hussain, R. T. Coutts, G. B. Baker, R. G. Micetich and M. Daneshtalab

Localization of cholecystokinin binding sites in canine brain using quantitative autoradiography 291
M. A. Morency, R. Quirion, N. P. V. Nair and R. K. Mishra

Studies on the properties of some peripheral MAO inhibitors 297
E. Scarr, P. H. Yu, B. A. Davis and A. A. Boulton

Deamination of 2-propyl-1-aminopentane and 2-[(2-propyl) pentylamino] acetamide by amine oxidases: formation of valproic acid 303
P. H. Yu and B. A. Davis

Enzymatic *N*-methylation of phenelzine catalyzed by phenylethanolamine *N*-methyltransferase 307
P. H. Yu, B. A. Davis and D. A. Durden

Acknowledgement for referees 313

Instructions to contributors i

Forthcoming papers v

CONTENTS
Volume 15, Number 3

Critical reviews and theoretical articles

Lithium administered by eye drops: a better treatment for bipolar affective disorder? 315
G. Schreiber and S. Avissar

Full-length original papers

Clinical studies

Glycosaminoglycan polysulfate in the treatment of old age dementias 323
T. A. Ban, L. C. Morey, E. Aguglia, R. Batista, G. Campanella, L. Conti, J.-F. Dreyfus, O. K. Fjetland, D. Grossi, A. Modaferri, G. A. Marin-Perez, A. Postiglione, V. Santini, A. Torres-Ruiz and L. E. Vergara

Effects of adjunctive verapamil administration in chronic schizophrenic patients 343
G. Bartko, S. Horvath, G. Zador and E. Frecska

Pituitary abnormalities in eating disorders: further evidence from MRI studies 351
P. M. Doraiswamy, K. R. Krishnan, O. B. Boyko, M. M. Husain, G. S. Figiel, V. J. Palese, P. R. Escalona, S. A. Shah, W. M. McDonald, W. J. K. Rockwell and E. H. Ellinwood Jr

Early decrease in density of mononuclear leukocyte β-adrenoceptors in depressed patients following amineptine treatment: possible relation to clinical efficiency 357
P. Mazzola, R. Jeanningros, J. M. Azorin, L. Aligne and R. Tissot

Thyroid releasing hormone test in schizophrenic patients with post-psychotic depression 369
S. G. Siris, K. Frechen, A. Strahan, J. Cutler, K. Owen, J. Alvir and T. McCorry

Experimental laboratory studies

Selective anorexigenic effects of corticotropin releasing hormone in the rhesus monkey 379
J. R. Glowa, J. D. Bacher, M. Herkenham and P. W. Gold

Effect of subchronic antidepressants administration on serotonin-stimulated phosphoinositide hydrolysis in *para*-chlorophenylalanine-treated rat hippocampal slices 393
I. Kusumi, M. Mikuni and K. Takahashi

Ontogeny of phenylalanine (endogenous cholecystokinin) induced modulation of food intake in normal and undernourished rats 405
R. Mathur and S. K. Manchanda

Opiate–dopamine interactions in the neural substrates of acoustic startle gating in the rat 415
N. R. Swerdlow, S. B. Caine and M. A. Geyer

Case report

Lithium-TCA induced malignant syndrome — case report 427
D. De Maio and M. Laviani

Volume 15, Number 3, *continued*

Instructions to contributors i

Forthcoming papers v

Volume 15, Number 4

Critical reviews and theoretical articles

Development of an early detection battery for dementia of the Alzheimer type 433
J. B. Cohn, C. S. Wilcox and B. E. Lerer

Full-length original papers

Clinical studies

Cytokines in Alzheimer's disease 481
L. D. Altstiel and K. Sperber

Clonidine and scopolamine: differences and similarities in how they change human information processing 497
E. Callaway, R. Halliday, H. Naylor and D. Brandeis

The effect of age, sex, weight and height on the plasma concentrations in healthy subjects of the acidic metabolites of some biogenic monoamines involved in psychiatric and neurological disorders 503
B. A. Davis, D. A. Durden and R. L. O'Reilly

Abuse of "BRON": a Japanese OTC cough suppressant solution containing methylephedrine, codeine, caffeine and chlorpheniramine 513
J. Ishigooka, Y. Yoshida and M. Murasaki

Fast feedback regulation of ACTH by cortisol 523
K. R. R. Krishnan, J. C. Ritchie, A. N. Manepalli, W. Saunders, S. W. Li, S. Venkataraman, C. B. Nemeroff and B. J. Carroll

Buprenorphine responders: a diagnostic subgroup of heroin addicts? 531
R. B. Resnick, E. Resnick and M. Galanter

Experimental laboratory studies

A nicotinic receptor antagonist enhances the hypothermic response to a muscarinic agonist 539
S. C. Dilsaver, M. J. Majchrzak, R. M. Snider and R. K. Davidson

Interleukin-1 potentiation of β-endorphin secretion and the dynamics of interleukin-1 internalization of pituitary cells 551
M. O. Fagarasan, P. K. Arora and J. Axelrod

Effect of ageing on melatonin synthesis induced by 5-hydroxytryptophan and constant light in rats 561
I. M. McIntyre and G. F. Oxenkrug

Naloxone effects on the visual evoked potentials recorded from the main and accessory visual pathways of the cat 567
L. Rocha, R. Fernandez-Mas, R. Gutierrez, A. Martinez, F. Pellicer and A. Fernandez-Guardiola

Forthcoming papers vii

Volume 15, Number 5

Critical reviews and theoretical articles

Magnetic resonance imaging in biological psychiatry 581
C. Na, P. M. Doraiswamy, K.-H. Lee and K. R. R. Krishnan

Full-length original papers

Clinical studies

The changes of thyroid hormone during pharmacological treatment of panic disorder patients 595
R. Balon, R. Pohl, V. K. Yeragani, C. Ramesh and D. A. Glitz

Concentration of cholecystokinin in cerebrospinal fluid is decreased in psychosis: relationship to symptoms and drug response 601
M. C. Beinfeld and D. L. Garver

Effect of dietary phenylalanine on the plasma concentrations of phenylalanine, phenylethylamine and phenylacetic acid in healthy volunteers 611
B. A. Davis, R. L. O'Reilly, C. L. Placatka, I. A. Paterson, P. H. Yu and D. A. Durden

Variability in psychometric test scores: the importance of the practice effect in patient study design 625
B. F. Johnson, K. Hoch and J. Johnson

Role of serotonin in hypothalamo pituitary adrenal axis escape from dexamethasone suppression 637
K. R. R. Krishnan, J. C. Ritchie, A. N. Manepalli, W. H. Wilson, W. B. Saunders, S. S. Venkataraman and B. J. Carroll

Effects of acute infusion of the muscarinic cholinergic agonist arecoline on verbal memory and visuo-spatial function in dementia of the Alzheimer type 643
K. C. Raffaele, A. Berardi, P. P. Morris, S. Asthana, J. V. Haxby, M. B. Schapiro, S. I. Rapoport and T. T. Soncrant

SPECT regional cerebral blood flow and neuropsychological testing in non-demented HIV-positive drug abusers: preliminary results 649
S. W. Woods, S. S. O'Malley, B. L. Martini, C. J. McDougle, L. H. Price, J. H. Krystal, P. B. Hoffer and T. R. Kosten

Experimental laboratory studies

N-methyl-D-aspartate receptors and release of newly-synthesized [^{3}H]dopamine in nucleus accumbens slices and its relationship with neocortical afferences 663
H. Asencio, G. Bustos, K. Gysling and R. Labarca

Volume 15, Number 5, *continued*

Dietary choline manipulations and behavioural modifications in rats in the early stages of aging 677
A. Fundaro' and A. Paschero

Dissociation of autoreceptor activation and behavioral consequences of low-dose apomorphine treatment 689
M. R. Lynch

The effects of beta-blockers and diazepam on heart rate of conscious conditioned rats 699
M. Nishimoto, T. Uematsu, T. Ozaki, H. Satoh, M. Nakashima, K. Miyasato and K. Ohara

Effects of long-term treatment with lithium and antidepressants on [^{3}H]forskolin binding to rat cerebral cortical membranes 709
Y. Odagaki, T. Koyama and I. Yamashita

Diltiazem suppresses quinpirole-induced oral stereotypies in haloperidol withdrawn rats 717
O. Pucilowski and B. Eichelman

Instructions to contributors i

Forthcoming papers v

Volume 15, Number 6

Critical reviews and theoretical articles

5-HT$_{1A}$ receptor responsivity in anxiety disorders and depression 723
K.-P. Lesch

Animal study on the role of serotonin in depression 735
H. Nagayama, K. Tsuchiyama, K. Yamada and J. Akiyoshi

Infant rat separation is a sensitive test for novel anxiolytics 745
J. T. Winslow and T. R. Insel

Full-length original papers

Clinical studies

Serotonergic interhemispheric asymmetry: neurochemical and pharmaco-EEG evidence 759
M. Arato, E. Frecska, D. J. MacCrimmon, R. Guscott, B. Saxena, K. Tekes and L. Tothfalusi

Is a single tricyclic antidepressant trial an active treatment for psychotic depression? 765
A. Khan, C. Noonan and W. Healey

Adrenal function in abstinent alcoholic men 771
P. T. Loosen, B. Chambliss, S. S. Pavlou and D. N. Orth

HPA-axis hormones and prolactin responses to dextro-fenfluramine in depressed patients and healthy controls 781
M. Maes, P. D'Hondt, E. Suy, B. Minner, C. Vandervorst and J. Raus

Volume 15, Number 6, *continued*

Pharmacokinetics of peptide T in patients with acquired immunodeficiency syndrome (AIDS) 791
M. R. Ruff, C. Smith, T. Kingan, H. Jaffe, P. Heseltine, M. A. Gill, K. Mayer, C. B. Pert and T. P. Bridge

Experimental laboratory studies

Antagonism of EEGraphic and behavioural effects of methamphetamine by selective receptor blockers (SCH 23390 and raclopride) in the rabbit 803
P. Bo, E. Marchioni, C. Dallocchio, A. Albergati and F. Savoldi

Hypnotic action of flunitrazepam is reversed by proglumide in rats 817
Z. De Saint Hilaire-Kafi, P. G. Vallet and J. M. Gaillard

Behavioral models in mice. Implication of the alpha noradrenergic system 825
M. Hascoët, M. Bourin and J. Bradwejn

The effects of conditioning with amphetamine on the thermic effects of amphetamine and pentobarbital 841
R. E. Hinson, A. Streather and G. Cosburn

Emerging pharmacology of nerve growth factor 851
P. A. Lapchak and F. Hefti

Effects of acute administration of SCH 23390 on dopamine and serotonin turnover in major dopaminergic areas and mesencephalic raphe nuclei — comparison with ritanserin 861
J. Lappalainen, J. Hietala, M. Koulu, B. Sjöholm and E. Syvälahti

Antagonism of physostigmine induced hypothermia and neuroendocrine changes following exposure to different environmental temperatures 873
R. P. Maickel, D. R. Kinney, D. L. Ryker and M. B. Nichols

Distribution of D_2 dopamine receptor mRNA in the primate brain 885
J. H. Meador-Woodruff, A. Mansour, O. Civelli and S. J. Watson

The response of the pineal melatonin biosynthesis to the selective MAO-A inhibitor, clorgyline, in young and middle-aged rats 895
G. F. Oxenkrug, I. M. McIntyre, P. J. Requintina and J. D. Duffy

A scaling approach to find order parameters quantifying the effects of dopaminergic agents on unconditioned motor activity in rats 903
M. P. Paulus and M. A. Geyer

Modulation of benzodiazepine agonist and inverse-agonist receptor binding by GABA during ethanol withdrawal 921
P. L. Prather, S. M. Rezazadeh, J. Chen, H. Lal and M. W. Martin

Short and preliminary papers

Alpha-methyltryptophan as a therapeutic agent 935
T. L. Sourkes
